

STEM

# OXYGEN – ATOMIC NUMBER 8

An atom is the smallest part of any element.

**E = ELECTRON**    **P = PROTON**    **N = NEUTRON**

Count the electrons, protons and neutrons in the atom and fill in the blank:

\_\_\_\_\_

Oxygen is in the air  
we breathe and  
the water we drink.

\_\_\_\_\_

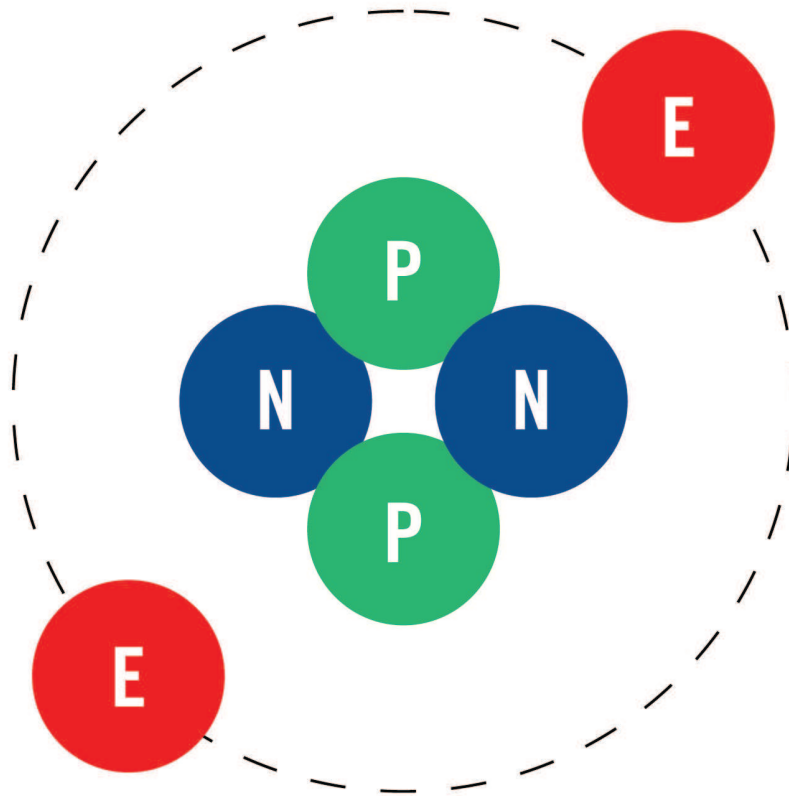

Oxygen is used by  
humans and plants.

STEM

# HELIUM – ATOMIC NUMBER 2

An atom is the smallest part of any element.

**E = ELECTRON**    **P = PROTON**    **N = NEUTRON**

Count the electrons, protons and neutrons in the atom and fill in the blank:

\_\_\_\_\_

Helium is found in the  
ground and in the sun.

\_\_\_\_\_

Helium is used in the  
Goodyear Blimp and  
birthday Balloons.
